Subject: FW: Orthophosphate in use in Flint
ZINC ORTHOPHOSPHATE MSDS.pdf

.....
>>>>>
Mike,

Note sure if you received my previous e-mails below.

I have attached a Material Safety Data Sheet ("MSDS" Sheet) from a supplier of Zinc Orthophosphate.

I have not been able to find the MSDS sheet on what specific zinc orthophosphate is being used in Flint and/or the corresponding doses being added to the water.

Could you please send me the MSDS sheet and/or point me to where it is available with the dosing for Flint water?

Melissa,

This MSDS sheet should be posted somewhere at the treatment plant. Maybe you can get a copy?

Thanks.

Mike,

Just wanted to follow up and see if you can send me the MSDS sheet or sheets per below on the phosphate compound or compounds that have been in use in Flint.

Thanks.

Bryce,

Thanks.

Mike,

Can you send me the MSDS sheet(s) on the phosphate compound(s) that have or are been in use by the City of Flint?

Thanks.

Hi Scott,

Mike Glasgow (copied) should be able to provide the specific information about the phosphate you are requesting. The dose information is on their MORs, which are uploaded to the www.michigan.gov/flintwater website every week.

Thanks. Bryce

Mark,

Thanks for the information.

Bryce,

Maybe I am missing it in my public searches, but do you have the MSDS sheet on the specific orthophosphate being used in Flint and the amounts being added to the water distribution system?

If not, can you refer me to someone at the City or water plant to contact?

Thanks very much.
